

FIZA K

.NET Developer

fizasfik@gmail.com • +91 9384630191 • Chennai, India • linkedin.com/in/fiza-k-3453561a1

PROFESSIONAL SUMMARY

Dynamic .NET Developer with 3.9 years of experience delivering scalable, secure, and efficient solutions across the Healthcare and Airlines domains. Proficient in C#, .NET Core, ASP.NET MVC, Web API, ADO.NET, and MS SQL, with complementary expertise in front-end technologies (HTML, CSS, JavaScript, jQuery) and exposure to Node.js and Python. Skilled in leveraging Agentic AI and modern AI tools to enhance SDLC workflows, improve code quality, and drive automation.

Proven track record in:

- Building and deploying enterprise applications on IIS, Windows Services, and Task Scheduler.
- Automating secure file transfers using Globalscape EFT and implementing OpenPGP encryption with GPA, GnuPG, and Kleopatra.
- Supporting production environments, troubleshooting issues, and aligning deliverables with global stakeholders.
- Driving Agile collaboration through sprints, stand-ups, and code reviews, ensuring timely and high-quality outcomes.
- Recognized for adaptability, collaboration, and operational discipline, with a strong commitment to delivering maintainable solutions that meet compliance standards and business goals.

CORE COMPETENCIES

Languages & Frameworks: C#, .NET Core, .NET Web API, ASP.NET MVC, ADO.NET, Entity Framework, Python

Databases & Tools: MS SQL, MySQL, Globalscape EFT, Postman, Altair, SoapUI, Swagger, ServiceNow, MS Office, WinSCP, Power BI

Deployment & Hosting Platforms: IIS (Internet Information Services), Windows Task Scheduler, Windows Services, CI/CD

Cryptography & Security: GNU Privacy Assistant (GPA), GNU Privacy Guard (GnuPG), Kleopatra, Checkmarx, SonarQube

Web Technologies: HTML, CSS, JavaScript, jQuery

Architecture & Design Patterns: Microservices, Monolithic

IDE: Visual Studio, Visual Studio code, Eclipse, Jupiter Notebook

AI Tools: Microsoft 365 Copilot, ChatGPT, Grok AI, Blackbox AI, Gemini AI, Perplexity AI, Agentic AI for SDLC, Claude Sonnet

Others: GitHub, Azure DevOps, Unit Testing, Canva

PROFESSIONAL EXPERIENCE

Software Engineer

2022-09 - Present

Neurealm Private Limited (formerly GS Lab | GAVS Technologies)

- Built .NET solutions for Airlines using C#, .NET Core, SQL Server, ADO.NET, ASP.NET MVC, .NET Core Web API, .NET Core MVC, HTML, CSS, JavaScript, jQuery, and IIS Server.
- Collaborated directly with U.S. stakeholders to gather requirements and actively participated in weekly stand-up meetings to streamline development efforts and monitor project progress.
- Collaborated in Agile teams, contributing to sprints, stand-ups, and code reviews to deliver quality software on time.
- Improved team performance with technical inputs and aligned deliverables with US stakeholders.
- Used AI tools and Agentic AI approach to enhance code quality, automate workflows, and implement best practices.
- Implemented automated Flight Attendant notifications through both console and web applications and successfully upgraded more than 10 application systems to the latest .NET Core version.

- Provided application support, resolving issues across platforms.
- Automated file transfers via SFTP/FTP using Globalscape EFT server expertise.
- Proficient in GPA, GnuPG, and Kleopatra for secure key management and encryption, implementing OpenPGP standards (using Public, Private keys and Passphrase).

EDUCATION

Dhaanish Ahmed College of Engineering BE - Computer Science & Engineering (CGPA – 8.54)	2018 - 2022
Zion Matriculation Hr Sec School HSC (86.9%)	2017 - 2018
Zion Matriculation Hr Sec School SSLC (96.8%)	2015 - 2016

LANGUAGES

English (Full Professional)	Hindi (Native/Bilingual)	Tamil (Native/Bilingual)	Urdu (Native/Bilingual)
------------------------------------	---------------------------------	---------------------------------	--------------------------------

PROJECTS

Flight Attendant Notebook (ASP .Net Core MVC - Monolith Application) – An application to manage and to Track Employee/Flight Attendant data like Absence Requests, Performance, Attendance, Compliance with an Admin section which allows Supervisors to manage all the Employee data. Mail Template Info section to display/edit various mail templates (Separation, Warnings, Suspension, No Discipline, etc...) for each type of Notification based on the changes/updates the Supervisors need for different bases/locations.

Technical Publications Management Application Development (ASP .Net Core) – An application which is used to manage Technical Publication details, Create Products and Publication Change Request for each product and manage the Revisions along with Excel reporting functionalities.

Pilot Record Database application (XML to JSON conversion) – An application to read excel files (XML) that contain Pilot data and converting them to JSON files based on required fields and posting them to an API URL so that other Web applications may consume the data.

Crew Report Automation application (SQL Job to .Net Framework app) – A .NET framework application that generates Crew Member reports, encrypts them and sends them to DAI via SFTP.

ACHIEVEMENTS

Won Outstanding Performance award for Airlines Application Operations and Tech Support Q1 2026 **@Neurealm**.

Won Star of the Quarter Award - Q2 2023 & 2024 for Globalscape EFT server upgrade and Airlines Application Operations and Tech Support **@Neurealm**.
